COUNTRY COURT CARE

Our family caring for yours

County Court Care are passionate about their resident's well-being which reflects their core belief that all older people deserve the best quality of life. The multi award winning Care Group provide homes that consistently exceed industry expectations and Ferras Hall is one of their purpose-built developments.

THE ISSUE

Interior Designers, Samantha Lord Interior Design Ltd, were selected for their creative flare to design a luxury yet homely care environment for Country Court Care. Spread over three floors, Ferras Hall aims to provide personalised residential and dementia care in a luxury environment. The home has been purpose built to promote a lifestyle for residents that offers beautiful, homely accommodation and a high quality of personalised care.

The Equinox Collection was a natural selection for Design Director, Samantha Lord. Having worked with danfloor for many years Samantha knew that the carpets would not only meet the homes expectations of a luxurious look and feel, but would also provide a practical and sustainable flooring solution at the same time.

THE SOLUTION

Whilst considering the needs of those residents living with dementia Samantha created a stylish warm and comfortable environment for all residents. To help her achieve this danfloor's carpets were selected for use within key circulation areas namely the reception, dining and social areas including the onsite cinema as well as corridors and lounges throughout the home. Neutral colours from the Tones and Stripe range, including Sienna and Arcadia, were selected to provide a natural base for the remaining decorative textiles and finishes.

Despite providing a luxury feel the carpets have a pile depth which is ideal for the use of walking aids and trolleys. The EQUINOX Collection also has exceptional performance characteristics, an impervious membrane and an anti-microbial yarn treatment in addition to its 10 year wear guarantee.

Innovative Carpet Solutions

THE OUTCOME

County Court Care and Samantha Lord Interior Design Ltd are extremely proud of this purpose built residential home which has been finished to an exceptionally high standard. Staff at the home are pleased with the look and performance of the EQUINOX Collection which provides the following key features :-

- Made from the Prism™ fibre which enhances the colour of the carpet and minimises the visual effects of soiling and stains
- Includes BI-OME® an antimicrobial yarn treatment which kills micro-organisms when they come into contact with the carpet fibre and therefore assists with infection control.
- Has an impervious membrane which stops surface spills reaching and contaminating the sub floor.
- Has great sound absorption qualities which reduce noise reverberation times and creates a "therapeutic environment" in which people can relax.
- Increases' confidence in those who need assistance with walking as it's been proven that gait speed and step length is greater in older people walking on carpeted areas than when walking on vinyl. As a result, the Equinox Collection has been designed to facilitate and withstand impact from walking aids.
